## Installation

If the wires are placed in an outdoor environment, the included waterproof terminal is suggested to use.

For the Europe Region

**NOTE:** Different countries may have different colors for wiring. Please connect the wires of the same color together.

## Installation

Fix the F1 to the bracket

**\*\* Note**

- A. Fix the camera
- B. Adjust the angle
- C. Adjust the direction and fix the camera.

## Connection

### Download

Arenti is available for both iOS and Android OS. Search the name 'Arenti' in App Store or Android Market, or scan below QR-Code to download the App.

### Add device

Log in the Arenti, select "Add Device", and add the smart camera to the App according to the screen tips(Make the smart camera close to the router when configuring).

**NOTE:** If you need to re-select the WiFi network, please press and hold the "RESET" button for 5 seconds, the device will restart, and the indicator will be flashing red.

## Function

### Lighting Control

You can turn the light on or off with time setting or PIR.

### Full-Duplex Audio

You can see and hear the visitor in your App from the camera.

### PIR

When the camera detects someone stopping by, it sends an alarm message to your cell phone.

### Record

Using SD card or activating the Cloud-Storage Service to keep recording for every moment.

### Day & Night

Powerful night vision without any interruption, even in complete darkness.
